

# Brasilian

## F U T E B O L

The BRASILIAN FUTEVOL is a skills development tool that can be used by players of all ages at all levels. Beginning or young players can improve motor skills & coordination, eye - foot coordination, and balance as they learn how to use their bodies in relationship to the game. Advanced players can develop rigorous, fast-paced routines that stress a quality touch, agility, physical and tactical speed, fitness and a determination to succeed. Consistent use of the Brasilian Futebol will develop touch and confidence with a soccer ball.

**The Brasilian Futebol is offered in two sizes.** The original futebol is similar in size to a # 3 soccer ball, but is weighted to better approximate a size 5 giving players a truer feel and thus developing a better touch. Our newest addition, *the Bambino*, is the size of an American softball or a grapefruit. Both are made of rubber, which gives it lively qualities and, with proper inflation, considerable bounce. The bounce sets the Futebol apart from other practice balls adding a new dimension to training sessions.

Together, these two balls offer a dynamic way to develop a touch and skill set that will make training with a regulation game ball seem easy.

Professional clubs and players throughout Brazil use the futebol as a means to enhance skill level. The BRASILIAN FUTEVOL can be the centerpiece for a wide variety of challenging games. Group games like keep-away or tiger-ball, or individual games like Futebol Tennis, horse or juggling duels can provide fun environments that push players both technically and physically.

Incorporated into your training sessions, the Futebol will raise the level of enthusiasm while challenging players to focus on the difficulty of the given task, which will produce positive and measurable results for your players. Technical training and small-sided games with the BRASILIAN FUTEVOL will increase player eye-foot dexterity due to the smaller size and texture of the ball. It's liveliness and weight will help to define a softer caressing touch. Players will gain confidence as their skill level and comfort with the ball accelerates.

### Now At Sunset Soccer Supply

3401 Irving St. @ 35<sup>th</sup> Ave.

San Francisco, CA 94122

(415) 753-2666
